Dear Mr. Ogdon,

Here is a record of Andre's Inventions which was taken from the radio, and which I understand that Novello's have a copy of in any case, but I thought you might like to keep this. On the other side is his 7 Sonnets of Shakespeare with Margaret Cable singing.

Andre is STILL in Australia, and is playing his last TV concert there tomorrow. I have just spoken to him in Sydney (it sounds incredible doesn't it - I can never get over communications these days) and he sounds in fine form, and he is off in a few days to New Zealand to find a quiet cottage and to compose there.

I heard your monumental broadcast the other morning from Aberdeen with the Liszt and the Hammerklavier, for which many congratulations.

With all best wishes to you,

Sincerely,

Judy Arnold

P.S. I hope one day, finally, after thwarted dinner parties (that time with Tamas, who by the way, is going to come and live in London now) to meet you.
